LOAN DETAILS

The Loan details including the loan amount, interest rate and payments required from you are set out in the Application. In addition, prior to the disbursal of the Loan we will provide you with detailed payment schedule for the Finance which will give you information on the Loan, including the Interest rate, tenure, installments and the total payments required from you. You should read the Application and the payment schedule (when provided) carefully to ensure you understand them and to ensure you will be able to make the required payments.

Please be aware of the following:

- 1. Payments:** The monthly payments required from you are set out in the Application. The payment schedule, when provided, will give you more details on the payments, including the principal and interest components of each installment and the reducing loan balance. You need to make all the required payments on the due dates. When you do make payments, the amounts we receive are first applied to any outstanding fees and costs, then to any interest due and lastly to the principal amount of the loan.
- 2. Interest:** Interest will be charged on the Loan from the date it is first disbursed to you, and continue until the Loan is paid in full. The total amount of the interest which would be payable by you for the total Loan tenure will be in the payment schedule. This assumes no changes to the interest rate and tenure, and no prepayments or deferrals. We do not charge interest on interest (Compounded Interest).
- 3. Interest rate:** The Interest rate is set out in the Application. It is a fixed interest rate with accrued interest payable monthly.
- 4. Calculating Interest:** Interest is calculated by multiplying the balance due at the beginning of the relevant month by the interest rate. The first monthly period may vary, in which case the interest is calculated by dividing the annual interest rate by 365 and multiplying the number of days in that month. This is done using the reducing balance method which means you will pay more interest in your early installments, but as your Loan balance reduces, the interest component of your installment will reduce. For further information, please visit our website to explore our finance calculator.
- 5. Prepayment and Early Settlements:** During the life of the Loan, you have the liberty to make prepayments before the due date. However, you will be required to pay a fee as set out in the Service & Price Guide available on our website www.investbank.ae. The applicable fee will be charged as a percentage of the outstanding amount of the Loan for full outstanding prepayment and as a percentage of the amount being prepaid for partial settlement.
- 6. Default:** In case the Bank does not receive the payment on the due date of the installment, the Bank will levy a penalty for defaulting as applicable and as set out in Bank's Service & Price Guide available on our website www.investbank.ae.
- 7. Fees:** The due diligence, documentation and processing fees set out in the Application are payable by you on the date we make the Loan available to you and should be paid directly by you to the Bank. In addition, there may be standard fees which apply to your Loan as prescribed in our Service & Price Guide available on our website www.investbank.ae.
- 8. Obligations:** It is a condition of the Loan that the car is mortgaged to the bank. If you fail to repay your debt promptly, the bank will levy a penal interest and late payment fees as stipulated in the Schedule of Charges available on the Bank's website. Additionally, the Bank may exercise its right to repossess the car and auction it for sale to recover all or some of the dues outstanding on the loan. If the car sale price does not cover the full outstanding of the loan, you will still be liable to settle the remaining outstanding balance including any accrued charges due to repossession and any legal action. Additionally, if your end of service benefit is received by the bank, and if you decide to resign, change, are terminated from your employment, or if your employer decides to pay you your end of service benefit for any other reason, the amount paid may be utilized to settle the loan partially or in full. Your compliance to this condition is mandatory.
