

Disclosure Statement – Mortgage Loans (the Loan)

<p>Important Notice: It is important that you read this disclosure statement carefully. You should consider seeking independent legal advice. It is particularly important for you to understand that once we have advanced the Loan to you, you will be obligated to make the payments set out in the Mortgage Loan application form (Application) even if your circumstances change. If you cannot make the Loan payments, we may need to enforce our rights which could result in us taking legal action against you.</p>
<p>We are Invest Bank P.S.C., a commercial bank regulated and licenced by the Central bank of the UAE</p>
<p>LOAN DETAILS</p>
<p>The Loan details including the loan amount, interest rate and payments required from you are set out in the Application. In addition, prior to the disbursement of the Loan we will provide you with detailed payment schedule for the Loan which will give you information on the Loan, including the Interest rate, tenor, instalments and the total payments required from you. You should read the Application and the payment schedule (when provided) carefully to ensure you understand them and to ensure you will be able to make required payments.</p>
<p><i>Please be aware of the following:</i></p>
<p>1) Payments: The monthly payments required from you are set out in the Application. The payment schedule, when provided, will give you more details on the payments, including the principal and interest components of each instalment and the reducing loan balance. You need to make all the required payments on the due dates. When you do make payments, the amounts we receive are first applied to any outstanding fees and costs, then to any interest due and lastly to the principal amount of the loan.</p>
<p>2) Interest rate: The Interest rate is set out in the Application. It is a variable interest rate with accrued interest payable monthly. If you opt for the hybrid Interest rate model, then for a fixed period of time, the interest rate will be fixed and then changed to variable and linked to 1/3 month EIBOR.</p>
<p>3) Interest: Interest will be charged on the Loan from the date it is first disbursed to you, and continue until the Loan is paid in full. The total amount of the interest which would be payable by you for the total Loan tenor will be in the payment schedule. This assumes no changes to the interest rate, tenor and no repayments or deferrals. We do not charge interest on interest (Compounded Interest). Since the Interest rate is variable, the total interest paid on the Mortgage Loan changes as the rate changes.</p>
<p>4) Calculating Interest: Interest is calculated by multiplying the balance due at the beginning of the relevant month by the interest rate. The first monthly period may vary, in which case the interest is calculated by dividing the annual interest rate by 365 and multiplying the number of days in that month. This is done using the reducing balance method which means you will pay more interest in your early instalments, but as you Loan balance reduces, the interest component of your instalment will reduce. For further information, please visit our website to explore our Loan calculator.</p>
<p>5) Prepayment and Early Settlements: During the life of the Loan, you have the liberty to make prepayments before the due date. However, you will be required to pay a fee as set out in the Schedule of Charges available on our website www.investbank.ae. The applicable fee will be charged as a percentage of the outstanding amount of the Loan for full outstanding prepayment and as a percentage of the amount being prepaid for partial settlement.</p>
<p>6) Default: In case the Bank does not receive the payment on the due date of the instalment, the Bank will levy a penalty for defaulting as applicable and as set out in Bank's Schedule of Charges available on our website www.investbank.ae.</p>
<p>7) Fees: The due diligence, documentation and processing fees set out in the Application are payable by you on the date we make the Loan available to you and should be paid directly to the Bank by you.
